

COATED PRODUCTS DIVISION

## **Production Capabilities**

Self-wound (linerless) adhesive materials

Laminated stock for labels

Pattern-coated adhesives

Slitting

Sheeting

**Measurement Reporting:** coating performance, coatweight control

## **Material Capabilities**

**Water-based adhesives**

- Microsphere Removables
- Permanent (high adhesion)
- Removables (clear, low adhesion)

## **Functional Coatings**

- Topcoats (colors, printable)
- Release Coatings (silicone and non-silicone)

## **Substrates**

**Papers**

- 25 gsm to 160+ gsm
- Direct Thermal
- Thermal Transfer
- Label grades (clay-coat, semi-gloss, etc.)

## **Films**

- Polyester
- Polyolefins
- PVC

## **Release Liners**

- Silicone-coated papers
- Silicone-coated films
- Non-silicone Liners
