

PRODUCT DESCRIPTION

ULTRA THICK COHESIVE PAPER

- Constructed from two CPD Cohesive Sheets joined together under pressure
- CPD Cohesive Sheets are 16pt C1S - White Matt & White Gloss
- CPD Cohesive Coating is applied full coverage to one side of each sheet
- Opposite side (Print Side) of Cohesive sheet is coated with CPD's Digitally Print Receptive Coating
- CPD Cohesive side of sheet is dry to the touch & is non tacky until pressure is applied
- CPD Cohesive Sheets are joined together under a minimum 300psi to yield a finished 32pt stock
- The finished 32pt Ultra Thick Stock can be used for extra thick business cards, inserts and graphics

SPECIFICATIONS

- Standard Cohesive sheet sizes are: 13"Wx 19"L and 12"W x 18"L
- Custom sheet and roll sizes available upon request
